

Reading someone's thoughts

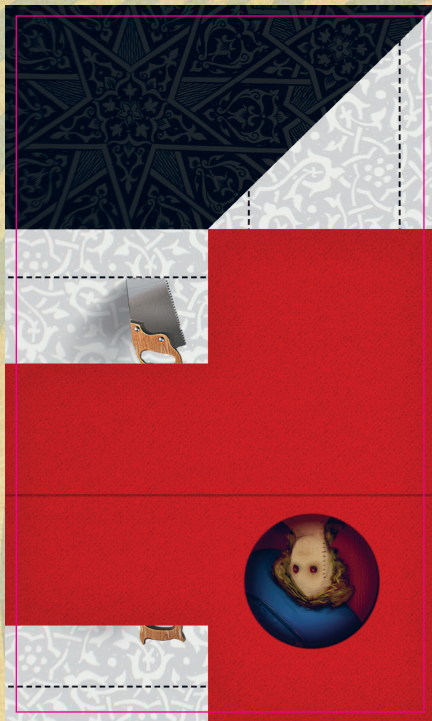

*For this trick, we need a volunteer,
preferably a good-looking lady!*

*Think of a number between 5 and 10.
This is your lucky number. Reduce this
number by 1. Multiply this by 3 and
add 7. Reduce this number by your lucky
number and then divide it by 2. Now
add 3 to it. Again, reduce the number by
your lucky number.*

ABRACADABRA!

AMAZING HOW I KEEP GETTING THE
OUTCOME RIGHT EVERY TIME!

HAVE ANOTHER LOOK AT THE
'VIRGIN AND THE SAW' TRICK IN
THE POSTER. WHATEVER YOU DO,
DON'T CUT INTO IT BEFORE IT HAS
BEEN FOLDED CORRECTLY! I DON'T
FANCY LOSING ANOTHER FINGER DUE
TO YOUR MISTAKES...
KISSES, DANIELLE

*My dearest Danielle,
I've forgotten the choreography of the gun
trick. I'm sure you will remember which
shot should be fired first!*
Hugs and kisses, your Flaubert

DARLING,
HAVE A GOOD LOOK AT THE POSTER
AND IT WILL BE OBVIOUS!
